

U.N. Agenda 21

On July 24th, 2013, the Massachusetts State Legislature voted to raise the gas tax 3 cents and tie future increases to the consumer price index (CPI). Because gasoline is needed to deliver goods and services **you depend upon**, tying the gas tax to the CPI will cause one to raise the cost of the other **without limit!**

**If you are a registered
Massachusetts voter, please**

Vote

On November 4th!

**Doing your part. This is how our republic is
supposed to work. Thank you. ☺ ...**
